The offering of condominium units for sale in SARASOTA BATH AND RACQUET CLUB, a condominium within a portion of a building or within a multiple parcel building (the "Condominium"), is made only by the prospectus for the Condominium, and no statement should be relied upon if not made in the prospectus. No real estate broker or salesperson is authorized to make any representations or other statements regarding this Condominium, and no agreements with, deposits paid to or other arrangements made with any real estate broker shall be binding on the Developer.

Renderings and photographs depict proposed views, which are not identical from each unit. Actual views may vary. Views depicted cannot be relied upon as being the actual view from any particular unit within the Condominium. No guarantees or representations whatsoever are made that existing or future views of the project and surrounding areas depicted by artist's conceptual renderings, photographs or otherwise described herein, will be provided or, if provided, will be as depicted or described herein. Any view from a unit or from other portions of the property may in the future change, be limited or eliminated. Developer makes no guarantees or representations regarding continuing existence of any view from a unit or development within any property in proximity to or visible from a unit.

All images, designs, sketches, renderings, photographs and graphic materials depicted herein are artist's conceptual renderings, are based upon preliminary development plans, are solely for illustrative purposes and are subject to change without notice. They should not be relied upon as representations, express or implied, of the final detail of the units or amenities. All features, amenities, facilities, plans, specifications and statements contained in this brochure are based on preliminary development plans. Plans and renderings may contain options and features that are not standard. Developer reserves the right to modify, revise, change or withdraw any of same in its sole discretion and without prior notice. No guarantees or representations whatsoever are made that any plans, specifications, features, amenities or facilities will be provided or, if provided, will be of the same type, size, location or nature as depicted or described herein. All improvements, designs and construction are subject to first obtaining the appropriate federal, state and local permits and approvals for same. Photographs may be stock photography used to depict suggested lifestyles rather than any that may exist. Scenes may be of locations or activities not within the Condominium or the Sarasota Bath and Racquet Club neighborhood. Models/lifestyle photos do not reflect racial or ethnic preference.

All depictions of appliances, plumbing or lighting fixtures, equipment, counters, soffits, finishes, floor, wall or window coverings and other matters of detail are conceptual only and are not necessarily included in a unit. Consult your purchase agreement and the prospectus for the items included with the unit. Measurements of rooms set forth on any floor plan are nominal and generally taken at the greatest points of each given room (as if the room were a perfect rectangle), without regard for any cutouts. Unit orientation and windows (including number, size, orientation and awnings), balconies (including configuration, size and railing/balustrade), structure and mechanical chases may vary. The developer expressly reserves the right to make modifications, revisions, and changes it deems desirable in its sole and absolute discretion and without notice.

These floor plans and specifications are for illustration purposes only. Dimensions and square footages set forth in the floor plans are approximate, may vary with actual construction, and are subject to change without notice. Stated square footage and dimensions are approximate and should not be used as representation of a unit's precise or actual size. Any statement, verbal or written, regarding "air conditioned" or "finished" area or any other description or modifier of the square footage size of any unit is a shorthand description of the manner in which the square footage was estimated and should not be construed to indicate certainty.

The approximate square footages for each unit in this brochure were derived using the "Architectural Method" of measurement, with square footage calculations taken from the exterior face of the exterior wall to the center line of the separation/partition wall of the unit, thus including a portion of the common elements which are adjacent to the unit, but outside of its boundaries. Square footage calculations based upon the Architectural Method will generally be greater than the square footage estimates based upon the "Engineering Method," where the calculation is based upon the legally described boundaries of the unit set forth in the Declaration of Condominium. The square footage calculations based upon the Engineering Method are the basis for determining the percentage of ownership in the common elements and assessment amounts. The unit square footage estimates calculated pursuant to the Architectural Method are provided in this brochure simply for comparative analysis to allow a prospective buyer to compare the units in this Condominium project with units in other condominium projects that base their square footage on the Architectural Method.

The room dimensions on the floor plans the dimensions are drawn to the face of framing or face of masonry. Consequently, a room dimension on the floor plans would be slightly smaller when the thickness of the drywall is subtracted from the width of the room.

Ceiling heights are measured from top of slab to top of slab. As a result, actual clearance between the top of the finished floor coverings and the underside of the finished ceiling, drop ceiling or soffits will be less. All ceiling heights are approximate and subject to change.

Equal Housing Opportunity. Developer encourages and supports an affirmative advertising, marketing and sales program in which there are no barriers to obtaining housing because of race, color, sex, religion, handicap, familial status or national origin.

Void where prohibited by law. This is not intended to be an offer to sell or solicitation of offers to buy real estate to residents of any state or jurisdiction where prior registration is required or where prohibited by law, unless registered or exempt from registration. Disclaimer about Private Club. A privately-owned and operated club ("Club") will be located in portions of the community that are adjacent to or near the Condominium. The Club's facilities may include but are not limited to a swimming pool, tennis courts, pickle ball courts and fitness facilities (collectively, "Club Facilities"). However, neither membership in the condominium association nor the master association nor ownership or occupancy of a unit will confer any rights to use the Club Facilities, ownership interest in the Club or any of the Club Facilities on any buyer. The Club Facilities are NOT part of the common areas of the master association or the residential recreational areas or other common elements of the Condominium. No buyer will have the right to use the Club Facilities unless the buyer is a member in good standing of the Club and/or pays whatever fees the Club owner may impose for use of the Club Facilities. Club membership dues or fees are NOT included in the Condominium assessments.
